UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION VII
726 MINNESOTA AVENUE
KANSAS CITY, KANSAS 66101

MAR 03 1988

Mr. Peter Keppler
Vice-President and General Counsel
AMAX Environmental Services, Inc.
1707 Cole Boulevard
Golden, Colorado 80401-3293

Dear Mr. Keppler:

On February 24, 1988, the U.S. Environmental Protection Agency (EPA) held a public meeting on the remediation of the second operable unit on the Galena subsite of the Cherokee County Superfund site. At the meeting, the EPA presented the Proposed Plan for the ground water/surface water remediation. A copy of that Proposed Plan has been transmitted to you previously.

Enclosed for your review and comment is the Final Draft report entitled, Ground Water and Surface Water Operable Unit Feasibility Study. Comments on the Proposed Plan and the Feasibility Study are being solicited from the public. All comments should be submitted to me and received by April 6, 1988. The EPA will consider all comments prior to making a determination on the remedial action.

A PRP meeting will be held at 1:00 p.m. on March 30, 1988. The meeting will be held in the seventh floor conference room of the General Accounting Office (GAO) in the Gateway II Building at Fourth and State Avenue, Kansas City, Kansas. The purpose of the meeting will be to provide the PRPs an additional opportunity to discuss the Proposed Plan and Feasibility Study.

If you have any questions, please contact me at (913) 236-2856.

Sincerely yours,

Alice C. Fuerst

Alice C. Fuerst
Cherokee County Project Manager
Superfund Branch
Waste Management Division
